2018 ACS Catalysis Lectureship for the Advancement of Catalytic Science
Nomination Form
Sponsored by ACS Catalysis and the ACS Division of Catalysis Science & Technology

Nomination Deadline: November 1, 2017

http://connect.acspubs.org/acscatalysiscfn2018

NOTE: The 2018 award cycle is focused on biocatalysis/enzymology.

This award honors current groundbreaking research that enables better understanding of catalysis and also advances the field of catalysis as a whole, with the largest emphasis placed on the candidate's impact on catalysis over the last 7 years.

Nomination Eligibility:
* Nominee must have published in ACS Catalysis
* The lectureship may be awarded to an individual or a collaborative research team of up to 3 principal members.

Nomination Requirements:
* Brief statement (1-3 pages) by lead nominator describing the nominee’s specific accomplishments relevant to the nomination
* List of top publications relevant to the nomination (X-7) years to present
* Letters of support (2 maximum in addition to the nomination letter).
* At least one letter writer or the nominator must be a member of the ACS Division of Catalysis Science & Technology. To join, visit: http://catl.sites.acs.org/join.htm

Nominations from previous years do not carry over and must be updated and resubmitted each cycle. Self-nominations are not permitted.

NOMINATOR INFORMATION
Nominator’s Name:

NOMINATOR’S LETTER
Statement Describing Nominee’s Accomplishments

SUGGESTED CITATION
A hallmark or brief summary of the nominee’s accomplishments and contribution to catalysis. If selected, the citation will be considered for inclusion in the winner’s announcement.

SUPPORT LETTERS
1.
2.

It is required that at least one nominator or supporting letter writer be a member of the Catalysis Science & Technology Division. Please include proof of Division membership with the nomination package.
